

Wilmington Grammar School for Boys - Press Release 12TH August 2021

Charlie Guthrie, Head Teacher at Wilmington Grammar School for Boys is delighted with the outcomes for students at GCSE level. "Throughout the pandemic, students have shown commitment and resilience. Collectively and individually they have remained focussed throughout the disruption, adapting to in class and online teaching as well as operating in bubbles without the usual access to practical activities that would normally have happened."

Our teachers have acted with diligence and integrity under extraordinary circumstances to provide our students with grades that are as accurate as possible. As such, it is only fair that today we focus on celebrating the much-deserved success of our students who are now well placed to progress to the next stage of their education. In the vast majority of cases this means that they will be returning to WG6, our 6th form that is shared with Wilmington Grammar School for Girls.

Although we are proud of the achievements of all of our students, special mention should go to:

James Pilling and Owen Hunter both achieved an exceptional ten Grade 9's. David Ruston and Sameen Haque achieved nine Grade 9's and one Grade 8 each, whilst Jake Anthony and Finn Lewis achieved eight Grade 9's and two Grade 8's. Exceptional achievements by an exceptional group of aspirational young men all of whom are intending to join WG6 to study their A level programmes.
